

# ANN Pharmaceutical Care Center

## PHARMACEUTICAL CARE

- ❖ It is a new approach in health care practice
- ❖ Pharmacy practice is a well-established approach playing a significant role in disease management.
- ❖ Pharmacist
  - Consults the doctor
  - Converses with the patient
  - Prepares a personalized care plan
  - Ensures best practice of disease management.
- ❖ Healthcare professionals are appealed to encourage & refer their patients to franchise of ANN Pharmacare and Wellness to avail pharmaceutical care services
- ❖ A pharmacist would never indulge in medical practice such as prescribing medicines or diagnosis of the disease.
- ❖ He/she would work in co-ordination on the prescribed medicines to bring the best outcomes for the patients.
